

Increase facility safety and compliance with 24-7-365 EH&S support & access to SDSs

3E SDS On Demand® provides 24-7-365 access to live professionals and the entire 3E database of millions of Safety Data Sheets (SDSs) which are sent via email or fax directly to a customer, their employees or other related callers. In the event that a requested product is not available in the current 3E database, 3E acquires the SDS directly from the manufacturer and forwards it to the customer as soon as possible. Translation assistance is also available for non-English speaking requestors.

Around-the-clock hotline access to the 3E Environmental Health & Safety (EH&S) Mission Control Call Center assists in compliance with global hazard communication requirements, offering a cost effective and efficient alternative to maintaining hard copy SDS binders. Access to the hotline is available within five days of contract start date and puts hazardous materials information and compliance just one call away.

An assigned 3E Customer Integration Specialist ensures a smooth implementation of the program. In addition, 3E provides start-up compliance kits which include instructions, posters, phone stickers and other literature displaying the toll free telephone number for employee use.

What SDS On Demand Can Do for Your Organization

24-7-365 SDS Access

Enjoy toll free, worldwide access to 3E's EH&S Mission Control Call Center and any SDS in the extensive 3E database. We can send a requested SDS to a fax located on a customer's site, to an ambulance, fire truck or healthcare facility as required.

SDS Obtainment

3E's EH&S Data Center Specialists maintain the 3E database through a regular review of all SDSs to ensure that the most current version is available to customers. And, based on 3E's extensive manufacturer relationships, SDSs are often supplied directly to 3E's library when an update is issued or a new product is released.

24-7-365 Chemical Spill Assistance

Get immediate toll free access to 3E's EH&S Mission Control Call Center to spill specialists for information and guidance on hazard assessment, location, weather considerations, evaluation of employee competency, use of personal protective equipment, absorbents, choice of storage containers, labeling and agency reporting requirements. 3E has expertise with all types of hazardous materials including toxins, blood borne pathogens, asbestos, lead, infection and radioactive materials.

Around-the-Clock Poison & Exposure Assistance

Equip your organization with immediate toll free access via 3E's EH&S Mission Control Call Center to poison control specialists, physicians and toxicologists who provide medical advice related to chemical exposures including skin/eye contact, inhalation and ingestion. Physicians are board certified in internal medicine, emergency medicine, occupation medicine and medical toxicology. Veterinarians are board certified in internal medicine and veterinary toxicology.

Call Activity Documentation

3E tracks names, dates and all details related to the SDS request. This documentation is available upon request.

Access to Historical Records

Expired SDSs are archived at a secure storage facility in hardcopy or electronic format (DAT tape). Customers have access to archived SDSs upon request. Each of 3E's services comes with a variety of options and enhancement modules that can be configured based on your EH&S information management needs.

CHOOSE 3E COMPANY

3E Company, a Verisk Analytics business, is a global provider of data and information services which enable companies to improve compliance with EH&S regulations and supply chain obligations through the entire lifecycle of chemicals and products. Whether you are a manufacturer, distributor or corporate user of chemical products, 3E can tailor a program specific to the compliance information and management needs of your organization. For more than 25 years we have led the industry in obtaining and managing content, offering unique insights and solutions that enable customers to reduce cost and risk while improving processes across the enterprise and throughout the supply chain. Global locations include our corporate headquarters in Carlsbad, California along with offices in Bethesda, Maryland; Canton, Ohio; Copenhagen, Denmark; Kingsport, Tennessee; Montreal, Quebec and Tokyo, Japan.
