

Meet the 3Expert

August 2015

This month's featured expert is Nhat Nguyen, **Regulatory Analyst, Asia Pacific, 3E Company.**

Nhat Nguyen is a regulatory analyst for 3E's Asia Pacific region. Mr. Nguyen is responsible for providing timely and accurate regulatory content for 3E's Ariel WebInsight and ArielLogic products, covering chemical, chemical products and food safety regulations in the Southeast Asia and Pacific region. Mr. Nguyen has written articles, spoken at conferences and given webinars on Asia Pacific chemical regulations. He also provides consulting services to companies conducting business in the region.

"The regulatory frameworks in the Asia Pacific region can be particularly challenging to track because of all the variations in languages, governmental structures and cultural norms," says Mr. Nguyen. "Coming from an engineering background, I view all of the different regulations as one big puzzle with many different parts and it is my job to organize and structure them in such a way that it will yield a clear, concise picture for our clients."

Prior to joining 3E, Mr. Nguyen worked as an attorney and consultant, advising multi-national corporations on a variety of issues involving EU, U.S. and Southeast Asian laws. Mr. Nguyen holds a bachelor degree in architectural engineering from the Illinois Institute of Technology, where he specialized in structural engineering and construction management. He also holds a Juris Doctor (law) degree from American University Washington College of Law. During law school, he worked with various governmental and public agencies including the U.S. Securities and Exchange Commission, and served as a clerk for an administrative judge at the Equal Employment Opportunity Commission.

Mr. Nguyen is the current president of the Capital Rowing Club (CRC), a 300-member community rowing club in Washington, DC whose mission is to provide rowing opportunities for people of all ages, gender, sexual orientation, income level, and physical ability. When he is not at work, he spends most of his time at the Anacostia Community Boathouse, coaching, coxing, sculling, or rowing with CRC's club rowing team.

Mr. Nguyen will be speaking at Chemical Watch's upcoming Regulatory Summit – Asia 2015 on October 1, 2015 on the topic of "GHS Implementation around the World" and "Developments in Singapore, Indonesia, the Philippines, Cambodia, Myanmar & Vietnam".
