

Meet the 3Expert

This month's featured expert is **Julie Byrne**, a Chemical Regulatory Consultant on 3E's Regulatory Consulting Services team.

In this position, Ms. Byrne is responsible for working closely with customers to assess their compliance needs and develop customized programs and solutions. Her current areas of focus include:

- General regulatory compliance
- TSCA compliance and TSCA CDR reporting
- K-REACH
- Advising customers on worldwide regulatory compliance and developing solutions for their unique company needs

On 14 July 2016, Ms. Byrne presented a [webinar](#) on TSCA reform and the implications it has on organizations. She is one of 3E's most trusted experts in TSCA reform.

Since joining 3E Company in October 2015, Ms. Byrne has helped many customers stay compliant with their TSCA reporting obligations. Ms. Byrne enjoys helping customers stay aware of their TSCA responsibilities and develop and implement specific solutions based on their business needs. According to Ms. Byrne, "Every day is different. Customers may need to comply with the same regulations, but their products are different, therefore their business needs are unique." Ms. Byrne works directly with customers to listen to their needs, apply her extensive regulatory knowledge and help develop creative solutions for each customer.

One of Ms. Byrne's most significant accomplishments has been broadening the scope of 3E's regulatory expertise on TSCA and Korea's REACH implementation (K-REACH). Ms. Byrne has helped customers implement K-REACH reporting before the July 1st deadline and has broadened 3E's scope of regulatory clearances in the process.

This year she is looking forward to helping customers implement the Frank R. Lautenberg Chemical Safety for the 21st Century Act which the President signed into law last [month](#). This historic reform has huge implications for businesses and supply chain compliance. "Regulations don't go away; they just become bigger and more complex. Our job at 3E is to provide our customers reliable and trusted services that bring value to their businesses," Said Ms. Byrne.

Before joining 3E Company, Ms. Byrne spent 39 years at Kodak, first working as a chemist and then as a regulatory EH&S specialist. She graduated from Rochester Institute of Technology, where she majored in Chemistry.

When she is not working, Ms. Byrne enjoys working in her garden, playing with her dog and spending quality time with her family.
