

Meet the 3Expert

This month's featured expert is **Eric Ensminger**. Mr. Ensminger is a Senior Regulatory Business Solutions Supervisor on 3E's Regulatory Consulting Services team.

Mr. Ensminger works with his team to ensure that 3E's vast range of compliance solutions are helping customers meet their regulatory needs on the local, state and federal levels. He has been part of the 3E team for more than a decade, and during this time he has cultivated his expertise in hazardous materials and waste regulations and requirements.

As part of his daily responsibilities, Mr. Ensminger works directly with customers to help them meet their regulatory needs, which means he has a wide range of responsibilities, including: tracking and analyzing regulations, interpreting regulatory documents and helping customers better understand their regulatory requirements. Mr. Ensminger said, "My goal is to help customers understand their regulatory obligations and to help them optimize their use of our solutions. I want to ensure that 3E is providing the best solutions and best value to our customers."

Mr. Ensminger also works closely with government agencies to ensure that 3E's solutions and associates are at the forefront of the latest environmental health and safety (EH&S) developments, which is particularly important as regulatory compliance evolves and becomes increasingly complex. "Knowing our team is contributing to overall workplace safety is one of the most rewarding aspects of my job," says Mr. Ensminger.

Mr. Ensminger is a seasoned public speaker on hazardous waste and materials, and he has presented at numerous industry conferences and company webinars. He most recently presented a [webinar](#) on EHS regulatory compliance in the retail industry. He provided viewers with insight into retail industry trends and 3E's growth and experience in the retail sector, detailing how cradle-to-grave solutions help customers ship, manage, store, properly dispose and report hazardous materials and wastes.

Mr. Ensminger also oversees a team of regulatory specialists who provide compliance consulting services to customers. In the past year, he and his team completed more than 6,000 hazardous materials reports and developed a new internal application to improve project efficiencies. When asked what he enjoys most about working at 3E, Mr. Ensminger said, "I like that I am contributing to my associates' professional and personal growth. It's the most rewarding part of being a supervisor."

Before joining 3E, Mr. Ensminger worked as a hazardous materials responder for the San Onofre Nuclear Generating Station.

When he is not at work, Mr. Ensminger enjoys living by the beach. He likes to surf and play baseball. He also enjoys traveling; he most recently visited Iceland.
