

## Meet the 3Expert

This month's featured expert is **Tamie Webber**, Vice President of Supplier Data Management. 3E's Supplier Data Management team is focused on maximizing the value that 3E customers receive from our Safety Data Sheet (SDS) management and supply chain solutions and services.

In her role, Ms. Webber oversees the team, determining the strategic direction and also leading product management, operational and business development efforts for our 3ESC® Supply Chain Solutions and 3E Online® - SDS management product families and their related services, including SDS distribution and management, emergency response and waste. Her team is currently focused on exploring new ways to optimize our solutions to best meet customers' current and future needs. One way she hopes to achieve this is by increasing integration between 3ESC and 3E Online, streamlining how 3E customers utilize the automation tools in 3ESC and 3E Online.

In addition, she leads the company's data obtainment and manufacturer relations teams which are dedicated to collecting data from our network of supplier manufacturers. She also has responsibility for the company's 24-7-365 EH&S Support Call Center.

Prior to her promotion, Ms. Webber served as Associate Vice President of Supply Chain Solutions. She also previously worked as Director of Product Management for 3E's SDS management solutions for more than a decade.

When asked what she enjoys most about working at 3E, Ms. Webber said, “There is never a boring day at 3E. There are always new opportunities to explore and innovate; whether that’s new markets to penetrate, staying abreast of new regulations or developing new solution-based products for our customers.”

Prior to joining 3E, Ms. Webber worked for Great Western Chemical where she was responsible for marketing and product management, overseeing chemical distribution and supply chain inventory management. Ms. Webber earned a Bachelor of Science degree in Finance and Marketing from the University of Oregon.

When Ms. Webber is not working, she enjoys spending time with her family and playing golf.
