

Meet the 3Expert

This month's featured expert is **Cristina Caro Tovar**, 3E's Regulatory Analyst for Latin America. As a Regulatory Analyst, much of Ms. Caro Tovar's duties consist of staying abreast of the latest regulations and providing customers with the most current and accurate compliance information. Her responsibilities include:

- Researching and analyzing applicable laws and regulations in Latin America concerning Environmental Health and Safety (EH&S);
- Legal research and analysis of food, chemicals, pharmaceuticals and cosmetics regulatory issues; and
- Providing consultancy reports to clients on specific regulatory issues in the chemical industry (i.e. registry, control, labeling and import of chemical substances or products containing chemicals).

Ms. Caro-Tovar has participated in webinars sharing her expertise on chemical regulatory issues, including the implementation of GHS in Latin America.

When asked what she enjoys most about working at 3E, Ms. Caro Tovar said, "I enjoy working on a diverse range of projects related to regulatory issues around the globe, which gives me the opportunity to share knowledge with my co-workers who analyze regulations in regions outside of Latin America. I also enjoy collaborating with 3E's many talented teams including Regulatory Consulting and Authoring Software and Services."

Prior to joining 3E Company, Ms. Caro Tovar worked as an attorney for an international law firm in Washington D.C., specializing in international trade and arbitration. She has practiced law in Mexico and in the United States. She has also worked as a law clerk for the Foreign Ministry of Mexico and for the Tax and Administrative Court of Mexico, prior to practicing law. Ms. Caro Tovar has more than 15 years of legal experience.

In her free time, Ms. Caro Tovar volunteers for non-profit organizations that help children in need of legal representation. She also enjoys spending time with her family in the great outdoors.
