

The Verisk Way is the 3E Way

“Serve, Add Value, Innovate” are the fundamental principles that define us. We fully embrace these values with all of our efforts.

3E is a Verisk Analytics business.

3E COMPANY STATEMENT OF STRATEGY & GUIDING PRINCIPLES

We excel at what we do

3E Company provides data and information services that enable companies to improve compliance with regulations and supply chain obligations through the entire lifecycle of chemicals and products. We are experts at developing, obtaining, and managing global content; and our unique insights enable our customers to reduce costs and risk while improving processes. Our broad and diverse solution offering supports upstream manufacturer product stewardship and downstream end-user workplace safety applications.

Data and analytics are at our core

3E's award-winning content is industry-leading and unsurpassed, serving as a robust foundation for our solution offerings. It flows through all stages of the chemical and product lifecycle and across the supply chain. From the collection, creation, validation, and distribution of compliant documents, through the usage of and eventual proper disposal of products; our data and services address multiple compliance tasks in the enterprise, adding value across and within companies, industries, and society as a whole.

We are guardians

We aim to serve as the premier guardian of the environment, workplace, and people. Our mission is to enhance our clients' performance and compliance, reduce regulatory and product stewardship risk, and ultimately serve to make the world a safer place. To help promote this vision, we offer around-the-clock customer service via the 3E Mission Control Call Center. Our team is highly accessible, and we are proud of our global coverage and support.

We are constantly innovating and improving

We strive to provide the broadest range of product risk information and compliance services. This information is delivered via a wide range of platforms to best address the business needs of our diverse and global customer base and their supply chains. At 3E, we are constantly enriching our solution suite to deliver world-class,

content-driven products and services that integrate seamlessly into enterprise and industry EH&S and supply chain decision support systems.

Our team is our greatest asset

3E has more than two decades of experience providing critical EH&S services to global customers. Our professionals have deep domain expertise and many are recognized as industry thought leaders, as evidenced by our industry awards, speaking engagements and published articles. 3E's team provides a unique and powerful combination of content sourcing – validating, interpreting, and analyzing the content to add value – and developing the underlying technology to enable seamless access to this rich content.

Our dedication and commitment is unwavering

Our steadfast commitment is evidenced by our long-standing customer relationships and high renewal and retention rates. 3E is firmly dedicated to providing our customers with:

- The world's premier data and analytics for EH&S and supply chain compliance management
- Improved business processes via expertly adding value to complex and fragmented data flows
- A trusted source for definitive, objective, and accurate content
- A catalyst for positive change and innovation through data and technology
- Solutions that support reduced regulatory and product stewardship risk in the supply chain
- Technology that integrates and optimizes regulatory content to maximize business value
